WORKSHEET 3: AGENT BUILDER

CEO of Superintelligence Workshop -- 2nd Year Edition | Time: 30 min | Team (2-3)

Part A: Agent Concepts (5 min)

1. Chatbot vs Agent -- Fill in the table:

Feature	Chatbot	AI Agent
Can use tools (search, calculator)	No	
Decides what steps to take		Yes
One question -> one answer	Yes	
Can complete multi-step goals		
Needs tools connected to work		

2. The 4 parts of an AI Agent:

Part	What it does	Example
[brain] B_____	Thinks and decides	GPT, Gemini, Llama
[books] M_____	Stores your data (RAG)	
[tool] T_____	Actions the agent can take	
[target] O_____	Logic: what to do when	

3. In one sentence, what makes an agent different from a chatbot?

Part B: Plan Your Agent (5 min)

Team name: _____

Team members: _____

Pick your agent idea:

- [ ] [grad] PlacePrep Coach -- interview prep + job market search
- [ ] [books] Study Buddy -- answers from your course notes
- [ ] [school] Campus Navigator -- campus info + events
- [ ] [work] Career Advisor -- job trends + personalized advice
- [ ] [pizza] Food Recommender -- local restaurants by budget/mood
- [ ] Entertainment Buddy -- movies, shows, events
- [ ]

[idea] Custom idea: _____

Agent Blueprint:

Agent Name: _____

Who is it for? _____

What problem does it solve?

System Prompt Draft:

Write your system prompt here BEFORE building. Include: personality, tone, rules, when to use tools.

Tools your agent needs:

Tool	Why?
1.	
2.	
3. (optional)	

Part C: Build It on n8n! (15 min)

Follow the checklist:

- [ ] Created new workflow on n8n
- [ ] Added Chat Trigger node
- [ ] Added AI Agent node and connected it
- [ ] Configured Groq API key and selected model
- [ ] Pasted system prompt in System Message
- [ ] Added Tool 1: _____
- [ ] Added Tool 2: _____
- [ ] Tested with first question -- it works!
- [ ] Tested with 4 more questions

Test Log:

#

Question You Asked

Tool used?

Quality (1-5)

1

3

4

5

Did anything go wrong? What did you fix?

Part D: Prepare Your Demo (5 min)

You have 2 minutes to present. Plan it!

Opening line (grab attention):

Live demo -- What question will you ask to show off your agent?

1.

2.

Closing line (why this is useful):

Part E: Reflection

What surprised you about building an agent?

What's ONE thing you'd add if you had more time?

Confidence level -- could you build another agent on your own?

1 (not at all) -- 2 -- 3 -- 4 -- 5 (totally confident) Circle one: ___

What Level are you now? (circle one)

Level 1 (Consumer) -> Level 2 (Prompter) -> Level 3 (Integrator) -> Level 4 (Agent Builder)

[v] Self-Check

- [ ] Explain what an AI agent is to someone who's never heard of it?
- [ ] Build a simple agent on n8n from scratch?
- [ ] Write an effective system prompt?
- [ ] Explain when to use RAG vs when to use tools?
- [ ] Tell someone the difference between using AI and building with AI?

Congratulations -- you're on your way to being a CEO of Superintelligence! [rocket]
